

## Lemon Grove to Get Money for New School

A wire received from Sacramento states that corrections have been made in the \$250 million state school building fund that will permit the long delayed school building program to get under way. During the special session of the state legislature the law was amended to provide:

1. \$50 million available October 5, for allocation to school districts.

2. Partial allocations to school districts. This permits allocation of a small amount of money to a great many school districts, thus enabling all school districts to "get started."

3. Money for off-site development. This would permit the use of State money to bring utilities, sewer lines, etc., to the school buildings.

4. Permit the use of State money for classroom furniture.

5. Make possible increased allocations to meet rising construction costs.

Locally this means that the Lemon Grove School District may reasonably expect an allocation during the latter part of October. Since the \$250 million is now unfrozen, the local school board will employ additional architectural services to rush the building plans to completion so that some construction may be under way by the first of the year. The completed plans on the Golden Avenue site are now in the State Department of Architecture awaiting final approval.

The five man committee of the San Diego County School Administrators Association sent to Sacramento to state the needs of San Diego County schools had nothing but praise for the state legislators from this county. As Vice Chairman of the Interim Committee on Education, Mrs. Katherine Niehouse worked unceasingly to eliminate every bottleneck in the State's school building program. Ralph Cloyd, although not a member of the Education Committee, attended all committee hearings with the group from San Diego County. Frank Luckel, while working on other committees, voted in support of all school measures, and Senator Fred Kraft was equally effective in the Senate.

At a meeting of school administrators and San Diego County legislators held prior to the special session of the legislature, Mrs. Katherine Niehouse recommended that a committee of school superintendents from applicant school districts be on hand during the legislative session with facts and figures showing the school building needs in San Diego County. Acting on this recommendation, Byron Netzeley, Lemon Grove; Harold Hughes, Grossmont; Glenn Murdoch, La Mesa; Elmer Walker, Lakeside; and Francis Darby of the San Diego County Schools office, worked as a team to advise on problems faced by the applicant school districts under the state aid building program.

## Hi, Neighbor

by Mae Rex Graham

Another Hi Neighbor makes good! That's the subject for our first story.

Mildred Collins, wife of Robert L. Collins, 7587 Roosevelt, mother of two darling little girls, and popular local beauty operator, started out on her own a year ago and established the Encanto Beauty Salon, 6491 Imperial Avenue.

Mildred worked diligently and efficiently, gave the best she had in making ladies beautiful, and studied new methods of the profession.

Now, on observing her first anniversary on October 3, she introduces Marjorie Chaffee as a full time operator to help take care of her rapidly increasing beauty business.

Congratulations, Mildred! All our Hi Neighbors love a winner, and especially if she is one of our home town girls.

Our boss, who looks after most of the advertising, tells us that the Wilson Television folks, down east on Imperial at Campo Road, are just about working day and night to get their TV orders installed.

Mr. Wilson believes in advertising and in giving good service and he says "It pays, and pays, and pays!"

Have you met the new lady in at Gregory's Western Auto Store? Mrs. Gregory's mother, Mrs. Jacoby, is there every day to help wait on customers and she will be happy to have you Hi Neighbors stop in and get acquainted.

A lot of you folks haven't met Mr. Gregory yet, so that's two reasons for you to stop in next time you are down town.

A most important event is taking place in Lemon Grove Sunday afternoon. A Ground-Breaking ceremony and Site Blessing service for the new Lutheran Church will be held at 3:30 o'clock.

In less than two years from the time the congregation was organized, a large plot of land, beautifully located on Skyline Drive, has been purchased, a large modern parsonage erected, and a church building started.

Much acclaim should be given the pastor, Rev. W. LeRoy Elster and his charming wife, but they wouldn't want it that way. They would praise their congregation for its co-operative labor in all things good, and thank God for His everlasting love and blessings.

Marvelous growth is taking place in all of our Churches—the Congregationalists have installed a new organ; the Baptists are building a new educational unit, the Seventh-day Adventists will soon start a large addition to their church; and St. John of the Cross is nearly ready for a most important announcement.

Upon the Churches of the Christian nations depends the peace of the world.

### Training Course for Girl Scouts

The Girl Scout training course being given by Mrs. Thos. Graham of Bolando and Mrs. W. T. Young will be held from 9:30 to 12:30 on October 3, 5, 10, 13 and 17 in the Baptist Educational building across from Lemon Grove School, instead of Community Center.

### Real Estate Boom on Here

Says Neil Morgan in his Cross Town column in San Diego Tribune:

Many realtors are crediting it to the summer's unusually heavy rains in beach communities, but an August boom in real estate in the La Mesa-Lemon Grove-Spring Valley area accounted for one-third as many sales as there were throughout San Diego City—which has a population almost 30 times as large.

The subject for the next monthly meeting will be: "Sit down method of ironing the easier way."

No more aching back; no more blue Monday!  
Ladies interested in home improvement should mark October 24 as the date of the next meeting. There will be another an-

## Ground Breaking for New Church

Following the services, Rev. and Mrs. Elster will hold open house in the new parsonage and ladies of the Church will preside at a silver tea.

Work has already started on the church, the congregation being able to begin work sooner than first expected. Last Thursday evening, the men turned out in force and dug the footing for the foundation. Under the supervision of the contractor Palmer Svalstad, work is moving along rapidly.

The congregation will continue to worship in the Seventh-day Adventist Church, Main and Burnell, until the church is completed.

## Congregational Church Installs Baldwin Organ

A new Baldwin electric organ was installed in the sanctuary of First Congregational Church this week.

The organ will add much to the worship service and was made possible through the efforts of the Church choir and the co-operation of members and friends.

Mrs. Arthur Thomas, organist, will play a short program of sacred music Sunday, preceding the two morning worship periods.

Dr. Nelson Dreier, superintendent of the Congregational Conference of California and the southwest will be the speaker at the organ dedication service Sunday afternoon, October 22, at 3 o'clock. Further notice of the program will be given later.

## Hi School PTA Membership Drive Oct. 1-8

"We believe you may need us—we know we need you" is Mrs. Paul Harvey's invitation to every parent and teacher in Grossmont High School's families and faculty to join the Grossmont Parent Teacher Association during the annual membership drive, October 1 to 8.

School enrollment is topping 2800 students, so goal of 1500 members has been set by membership committee headed by Mrs. Harvey and assisted by Benton Hart, faculty representative. Theatre tickets will be awarded students in the room with the highest percentage of members gained. Dues is 50 cents a year.

Mrs. Edward Strong, president, emphasizes the responsibility of every parent and teacher to share and encourage common aims through membership in the P.T.A. The public is reminded that P.T.A. is not a mother's club, money-raising agency, board of education, grievance society, advertising agency or partisan organization. The P.T.A. is one of the largest organizations in the world unselfishly devoted to the welfare of children and youth through co-operation of home, school and community.

Gordon Shields, legislation chairman, announces the stand of the California Congress of Parents and Teachers on Propositions 1 and 6 on the November ballot. Defeat of both is urged because No. 1 repeals personal property tax and would result in huge loss of school revenue and No. 6 legalizes gambling in California.

## Political Parade

CLEM WHITAKER, Jr.

California's astute Congressman Richard Nixon, candidate for the U. S. Senate at the November 7 General Election, has worked long and hard and carefully with his colleagues Muntz and Ferguson to perfect a Communist control bill which would be sane and effective.

Now a bill has been passed by Congress which incorporates much of the original Muntz-Ferguson-Nixon bill—but goes a good deal further.

There was yet a third measure, however, which while not passed, is well worth knowing about.

With the advent of Korea, the Administration wanted a Communist control bill, too, and Senator Kilgore, an Administration stalwart, duly introduced a bill to that end.

Unlike the Muntz-Nixon-Ferguson bill, which in its original form didn't deprive any American, including Communists, of any right to speak, publish or organize for political action, the Kilgore bill was all encompassing. Where the Muntz-Nixon-Ferguson bill wouldn't toss anyone in jail on mere suspicion or deprive a person of jury trial if charged with a crime, the Kilgore bill apparently cast aside many such constitutional guarantees.

Under the Muntz-Nixon-Ferguson bill, members of the Communist Party would have been required to register so that their affiliation would be known to everyone. The measure also forbade the appointment of Communists to federal service.

Under the Kilgore bill, as analyzed and reported, should an invasion be thought to be imminent—or when "an internal security emergency" (which covers almost anything) had been proclaimed—the Attorney General was empowered to arrest anyone he believed to be dangerous. The only appeal would be to a board of the United States Court of Appeals. (A person might be heard a year or so after the arrest.)

The danger of any bill to control Communists is that someone must decide who are Communists. The Kilgore bill, however, in the opinion of countless qualified observers, is the most dangerous measure to come before Congress in better than a century.

## SCHOOL NEWS

### Local Teachers Attend Fall-Day Institute

Teachers and administrators  
from the Lemon Grove School  
District joined with other pro-  
fessional groups from San Diego  
County at the Fall-Day Institute,  
held Monday at Conference Hall,  
Balboa Park, in San Diego. Mar-  
tin W. Perry, president of the  
County Board of Education, was  
chairman for this annual meet-  
ing.

The Institute opened with the  
pledge of allegiance, followed by  
singing of our national anthem,  
led by Mrs. Janice Schroeder,  
music co-ordinator of the County  
Schools. Peter H. Samson, pas-  
tor of the Unitarian Church, gave  
the invocation.

Clark Allen, talented singer of  
folk songs, entertained the  
teachers with ballads from many  
countries.

Mr. Perry then introduced Dr.

John S. Carroll, County Super-  
intendent of Schools, who, after  
eight years in his present posi-  
tion, has accepted the chairman-  
ship of the education department  
at Lubbock, Texas. In his fare-  
well address, Dr. Carroll spoke  
on "Looking Ahead," and point-  
ed out that by sharing in pur-  
poses, planning and action, we  
shall continue to build on the  
gains we have made.

William R. Weaver, president  
of the County Teachers Associa-  
tion, and Lewis F. Smith, pre-  
sident of the County School  
Administrators Association, deliv-  
ered brief reports to the as-  
sembly.

The theme of the entire meet-  
ing was "Conservation and the  
Use of Our Community Re-  
sources." Roy H. Blood, chief  
administrative assistant of  
Cleveland National Forest,  
United States Forest Service, in  
his address, stressed the fact  
that talking alone will not re-  
plant our spoiled wooded areas;  
it is necessary that we do some-  
thing concrete toward rebuild-  
ing the forests so recently de-  
stroyed.

Before the noon recess, the  
teachers broke into smaller  
groups for orientation to the af-  
ternoon excursions. Various  
tours of points of interest,  
mapped well in advance by the  
Institute committee, constituted  
the afternoon session. These  
tours included air flights, gal-  
eries and museums in Balboa  
Park, Anthony Home, health  
agencies, Cabrillo Monument,  
Campus Elementary School,  
playground and recreational fa-  
cilities, shipbuilding, etc. It  
was impossible to give every  
teacher his first choice of tours,  
but all were very interesting and  
will aid in classroom work. A  
compilation of Tour Guide In-  
formation will soon be available  
in the County Schools Library  
to assist teachers in making sim-  
ilar tour arrangements for stu-  
dents.

A luncheon honoring Dr. Car-  
roll was sponsored at noon in  
Cafe del Rey Moro, House of  
Hospitality in Balboa Park, by  
the San Diego Teachers' Asso-  
ciation, the Ninth District P.T.A.,  
the Association of San Diego  
County School Administrators,  
and the County School Teachers'  
Association. At that time a  
bound volume of letters express-  
ing appreciation for his services  
was presented to the administra-  
tor.

On Tuesday, at 10:30 a. m.

and at 1:00 p. m. art demon-  
strations were held for teachers  
throughout the Lemon Grove  
District in Room 12. Lemon  
Grove School, Mrs. Winters, a  
representative of Milton-Brad-  
ley, an art supply house, gave  
an introductory talk on the need  
for the teaching of art in our  
schools, and followed this with  
a demonstration of finger paint-  
ing, crayon coloring, block print-  
ing, water coloring and plasti-  
cine modeling. The demonstra-  
tion of art and its application  
was sponsored by the County  
Schools Office.

### Words of Wisdom

M. E. Spaght, S. F. manufac-

of research is in human relations.  
Science can give us a world fit  
to live in, but only the heart of a

it."

Jeff Cravath, USC football

conference team to beat. We  
don't rate better than third or  
fourth."

Bill Ackerman, UCLA grad-

Harold Dudley, Farm Advisor, based at Agricultural Extension headquarters in Berkeley, is now in San Diego County. His assignment to this county will be completed by the end of October, at which time he will receive an assignment to some other area in the state.

## TELLS OF NEWCASTLE DISEASE VACCINATION

Questions about live virus vaccine for pneumocephalitis (Newcastle Disease) continue to come into the County Agricultural Extension Service office, reports Farm Advisor Robert H. Adolph.

He states that wing web-stick live virus vaccines offer good protection in areas or on farms where the disease is known to exist. However, these live-virus vaccines used on susceptible birds may cause a drop in egg production and a possible loss as severe as a natural outbreak in laying birds. The value of this vaccine lies in giving the birds the disease in a mild form when it is not too costly, at a time birds are not laying.

Live-virus applied before the birds come into production has not been shown to affect egg quality. However, birds vaccinated when laying show losses in both rate and quality of eggs. Additional information on vaccination for Newcastle and other virus diseases is provided in the new circular, "How to Vaccinate," which may be obtained by writing or calling the Farm Advisors Office, 4005 Rosecrans, San Diego 10, California.

## BETTER TEMPERATURES IN UNCROWDED GROVES

Better temperature relations exist in the uncrowded avocado orchard, reports Joe Coony, of the Agricultural Extension Service. Records kept by Walter Averett, La Mesa grower, show how the better set of avocados in the uncrowded grove might well be due to the more favorable temperatures.

Averett found very little difference between the maximum and minimum temperatures recorded in the crowded and tree-thinned portions of his grove. But he did observe that the open or uncrowded grove warmed up earlier, differences showing by 8 a. m. By 10, 3-5 degrees was common. At noon and continuing until after 2 p. m., differences of 8-10 degrees were common, favoring the uncrowded grove.

It has been frequently suggested that there is some certain amount of heat or minimum or mean temperature requirement that must be fulfilled before Fuertes can set satisfactorily. The uncrowded grove would

satisfy such a requirement earlier, more frequently, and over a longer period of time than one that is dense, shaded and crowded.

So the open avocado grove not only has more total bearing surface or fruiting opportunity, but it also enjoys a more favorable climatic environment. The grower with the dense, crowded grove is passing up opportunity for increased gross income by maintaining "status quo" conditions.

All the world over it is true  
that a double-minded man is  
unstable in all his ways, like a  
wave on the streamlet, tossed  
hither and thither with every  
eddy of its tide.—W. M. Punshon.

Religious truth, touch what  
points of it you will, has  
always to do with the being and  
government of God, and is, of  
course, illimitable in its reach.
